### Notice of Current Availability

I am writing to inform you that I have recently commenced sessions at Victoria Clinic Consulting Suites. I am currently in a position to take on new patients with short wait lists. I have a particular interest in the assessment and ongoing management of anxiety disorders, mood disorders (including Bipolar Mood Disorder) and psychosis. In addition to prescription and monitoring of medication my practice will focus on psychotherapy, in particular Cognitive Behavioural Therapy. I am also in a position to offer Medicare item number 291 (Assessment and Management Plan.) These are essentially 'one off' assessments to provide specialist input into your ongoing management of patients with mental health issues. I am happy to discuss potential referrals and can be contacted via the Consulting Suites or on my mobile. I have enclosed business cards and a letter to patients. My fee structure is outlined below. Although Victoria Clinic Consulting Suites is not a bulk-billing practice, I will charge for services on a sliding scale for patients on a pension, with a healthcare card or experiencing financial difficulties.
