

**COMPREHENSIVE MEDICAL ASSESSMENT (CMA)
MEDICARE ITEM NO. 712 - SAMPLE FORM**

FEEDBACK

The CMA sample form is for use by medical practitioners in undertaking CMAs for residents of aged care homes. It provides a tool for recording the activities undertaken by the medical practitioner and the outcomes of the assessment.

The 1st page is a summary page - once completed this page can be used as a “written summary” of the outcomes of the CMA. The summary page can be forwarded to the aged care home for the purpose of informing care planning and medication management review for the resident.

The sample form will be provided to medical software developers for possible inclusion in appropriate software products. The Department would appreciate comments on how the sample form can be improved to make it easy to use for medical practitioners and useful for aged care homes and pharmacists undertaking medication management review for residents.

Your comments

Do you find this form useful?

Yes/No

Is the form easy to use?

Yes/No - if no, why?
